Legal Notice Comprehensive Five-Year Bond Review for TP Construction, Inc (Hard Rock Mining Operating Permit No. 00194)

The Montana Department of Environmental Quality (DEQ) is conducting a comprehensive bond review for Operating Permit No. 00194 issued to TP Construction, Inc (TPC). TPC's facility and associated disturbances are the Beaver Creek Quarry site, approximately six miles south of Havre, MT, and the Waid Quarry site, approximately eight miles southeast of Havre, MT.

DEQ has determined that the current bonding level does not represent the present costs of compliance with the Metal Mine Reclamation Act, administrative rules adopted thereunder, and the operating permit. DEQ is proposing a bond increase of \$57,876 (from \$175,958 to \$233,834). The bond increase is largely due to changes in fuel price and equipment rates, and updated indirect costs - mobilization, contingency, and administration costs.

The procedure for adjusting bonds as a result of a comprehensive bond review is set forth in Section 82-4-338(3), MCA. The Permittee and the public will have until November 20, 2024, to comment on the proposed bond increase. DEQ will issue a final bond determination after the comment period has expired. The Permittee, or any person with an interest that may be adversely affected by DEQ's final bond determination, may obtain a contested case hearing before the Board of Environmental Review. A written request for a hearing must be filed with DEQ within 30 days of the issuance of the final bond determination, stating the reason for the request.

The reason publication of legal notices is required in newspapers

is YOU, the citizen. In a Democracy, the government is required to inform you of the public business, because you and your neighbors are the basis for government.
